

CORPORATE **PROFILE**

About us

TR Life Science Private Limited was established in 2018 with a mission to enhance the quality of healthcare by providing exceptional services in project planning, design, development, and management operations. Our extensive projects, comprising over 1500 beds, are situated in various regions of India and Nepal, reflecting our commitment to advancing healthcare accessibility and delivery.

TRLs Healthcare Consultancy is a thought-leading health advisory organization with experts in science, insight, strategy, and communications delivered as a specialist service or as a fusion of expertise. As expert navigators, we enable healthcare clients to uncover hidden insights, explore scientific options, and forge difficult strategic choices.

We help clients and large conglomerates understand the healthcare market landscape by analyzing industries, profiling competition, sizing markets, segmenting customers, determining best distribution channels, evaluating most appropriate site locations, preparing investment feasibility studies, reviewing potential joint ventures or acquisitions, and delivering market entry and growth strategy in India.

TRLs Healthcare Consultancy experts combine techniques to collate, mine and model data with insights generated through past experience with healthcare professionals, and other key decision makers to drive strategic recommendations that meet our clients' needs.

Vision

Our vision at TRLS Healthcare Consultancy is to be a leading provider of innovative, sustainable, and equitable healthcare solutions, with a commitment to delivering exceptional value to our clients and patients. Our company's vision is to improve healthcare standards, hygiene, medical outcomes, and level of care in tier-II and tier-III cities in India, with a focus on human-to-human interactions. We envision to work with healthcare entrepreneurs across the strata without any socio-economic prejudice.

How we work

- Our culture is founded on a strong set of values that guide us in how we work with each other and with our clients.
- We constantly push ourselves in pursuit of excellence – optimized solutions, unrivaled processes and incomparable ways of working that help our clients navigate complexity and make better decisions with greater confidence.
- We recognize that the journey is often as important as the destination. Whether we are supporting you on your journey, or delivering specialist expertise, we are helping you make important choices. We work as an extension of your team so your journey with us is a great experience.
- We are a passionate team who believe in collaborative spirit and a can-do attitude. We build bold solutions and make insightful recommendations because we dig deeper and remain constantly curious, to provide positive challenge and fresh thinking.
- We offer industry specific expertise to take care all the aspects of healthcare project planning, designing, and development, we do project planning based on need assessment, adaptable medical program, challenges in outpatient and inpatient flow management, various associated costs, etc.
- We believe that the operational efficiencies are hidden in project planning and development & healthcare being a cost intensive industry need to look that aspect very seriously.
